THE VALLEY

ASP LTD 1982

**What are you...
Barbarian or Wizard?**

Choose your character type carefully... Barbarians recover quickly but their magic doesn't come easily. A Wizard? Slow on the draw and slow to mature... but live long enough and grow wise enough and your lightning bolts are almost unstoppable...

The Valley is a real-time game of adventure and survival. You may choose one of five character types to be your personal 'extension of self' to battle and pit your wits against a number of monsters. Find treasure, fight a Thunder-Lizard in the arid deserts of the Valley, conquer a Kraken in the lakes surrounding the dread Temples of Y'Nagioth or cauterise a Wraith in the Black Tower. In fact live out the fantasies you've only dared dream about. BUT BEWARE:... more die than live to tell the tale!

You've read the program (Computing Today — April '82) ... Now buy the tape. Tape versions (£11.45 each inc P&P and VAT) available for: ZX Spectrum (48K), Atari 400 and 800 (32K), Tandy TRS-80 Model 1 Level 2, BBC Model A and B, Sharp MZ-80A, Sharp MZ-80K (18K), VIC-20 (with 16K RAM pack) and PET (New ROM, 16K RAM minimum). Disc version (£13.95 each inc P&P and VAT) available for: Apple II (DOS 3.3), Sharp MZ-80A, Sharp MZ80K and PET 8032 (8050 drives).

A complete reprint of the Valley article is also available for those wishing to do their own conversions for £1.95.

Fill in the coupon and return it to CT Software, ASP Ltd., 145 Charing Cross Road, London WC2H 0EE and become one of the many to play... The Valley...

HARRIER ATTACK (Any ORIC-1)

At last a pure machine code, super-fast, action-packed, highly addictive arcade-style game requiring great skill. The harrier takes-off from an aircraft-carrier and flies over seaborne defenses to attack enemy installations on a nearby island. The harrier has bombs and cannon fire with which to protect itself and make its own attack. If it flies too high it is detected by enemy jet-fighters (which it may counter-attack) — so it needs to hug the mountainous terrain which also varies with every new game. But the island is heavily defended by anti-aircraft rockets and tanks, which again the harrier may counter-attack or try to fly through. A tally is kept of fuel, speed, altitude, ammunition, plus player score and high score. Finally the harrier must make its bomb-run over the enemy base before returning past more hostile shipping to its own carrier. This game is everything an arcade fanatic could ever hope for — with full colour graphics and explosive sound!

£6.95

JUNGLE TROUBLE! (Spectrum 16K/48K)

A highly addictive and very funny pure machine code game set in the depths of the African jungle. Lurking crocodiles, marauding apes, the pit of fire . . . Come back Tarzan . . . All is forgiven!!

£6.95

BLASTERMIND (Spectrum 48K only)

We have yet to find a more infuriating and downright rude version of a well known game. You too can have insults heaped upon you, as you struggle to beat a very sarcastic opponent. Even cheating won't work. Very addictive — until you throw the computer into the T.V. screen.

£6.95

THE QUEST OF MERRAVID (Vic-20 (16K))

A very challenging adventure. Will accept and act up to nine word sentences. Can you even find the magical firestone of the Dwarves, let alone wrest it from the Dragon of Thargon!

DRAGON CAVES

A 3-dimensional trip through a maze of over 1,000 chambers. Hidden deep in Dragon Caves is the Magic Amulet stolen from you by the Dragon's slaves. This Amulet must be found and removed from the Caves together with any other treasures that you may discover. In the maze there are several creatures, some of whom you must kill and others who will help you—if they feel like it. The only exit from the Caves is patrolled by a fearsome Dragon who you must defeat to escape with the Amulet. Superb 3-D graphics and realistic monsters make this a must for all owners of Sharp machines.

Price £9.95.

TOMBS OF KARNAK

A complex game of battles and discovery through a honey-comb labyrinth. First you are allotted a character which will determine your chances in the maze of 50 tombs. Next, you must confront the Guardian of the Tombs and the Quartermaster where you can barter for the armour and weapons that you will need. Then you start your journey through the Tombs of Karnak inhabited by an assortment of lethal beings who you must avoid or kill. Gory details of all battles are displayed on the screen—not for the squeamish amongst you. Characters from this game can be saved on cassette for use in further adventures.

TEMPLE OF ZOREN

An S.F. adventure by Mike Meineck

Terran Security classed it as a suicide mission — and then chose you! Now, after fighting your way through the Zoreen guardships, out of fuel and with a damaged computer, your survival prospects look even slimmer. With Guard Robots and Secret Police ringing the out-world capital, even penetrating the Ringwall will be bad enough. Only Agent 6809 would stand a chance, but, with the shipboard Reincarnation Unit on the blink, even YOUR survival looks questionable. So, grit your teeth, hit the retros and prepare for the mission that could end the Rimwars!
